Web Developer Profile

I'm a web developer dedicated to building user-friendly, accessible, and responsive websites and applications. As a former elementary teacher with 10 years of experience, I'm adept at working in a collaborative environment with strong skills in communication, time management, problem-solving, and conflict resolution.

I love reading fantasy novels (finished the Wheel of Time series), discovering new ramen shops while I'm traveling

Selected Skills

HTML5 | CSS | SCSS | JavaScript | JQuery | React | RESTful APIs | Firebase | Responsive Design | Web Accessibility | Github | Paired Programming | Scope Management | Time-management | Communication | Collaboration | Problem Solving | Adaptability
